

Upinder Zutshi

Managing Director & CEO

Upinder Zutshi as Managing Director & CEO of Infinite is a very unconventional leader, and has nurtured the growth of infinite with a very hands-on-approach. With his remarkable leadership, Upinder has defined the strategic direction of the Company, making Infinite's revenue grow above industry average. He has been instrumental in setting the vision for Infinite to be positioned as a Global Service Provider and moving the Company up the value chain by focusing on differentiated services and product based offerings in a non-conventional engagement and business models.

Under Upinder's leadership, Infinite has grown to be in the Nasscom Top 20 IT providers in India with a revenue of US\$ 255 Million in FY 2013; 5000+ employees worldwide, been named as Top 5 employers in India by Dataquest – IDC, Forbes Asia 200 Best Under a Billion Company in 2012; Top 10 Global Telecom Outsourcing Providers by IAOP and has been recognized as technology thought leaders in the emerging areas like mobility, messaging and analytics. He spearheaded the IPO of Infinite, which was one of the most successful IPOs in 2010, with a historic opening where it was over-subscribed manifold in a stock market where the giants were struggling through a global economic-crisis.

Upinder has over 28 years of experience in initiating and establishing startups and building an efficient management team under his guidance. His empathetic style makes him a very popular leader amongst the young and dynamic employees of Infinite. His leadership style encourages entrepreneurial culture that is goals driven, based on respect for people, freedom of thought, expression and action along with globalized business processes, practices and organizational structure that help create transparency and drive accountability within Infinite globally. Upinder realized early on that the company needed a winning team to make the Infinite vision a reality.

His leadership is evident in the progressive work environment at Infinite, where qualified and experienced people bring depth and maturity while retaining focus on flexibility, innovation and integrity which are the core elements of the entrepreneurial DNA of the organization.

In his formative years, he has worked extensively in US, Europe, Middle East and India, with reputed companies holding key leadership positions. A greater part of his career, post his first job at CMC Limited, has included experience in building early stage companies, setting-up start-up ventures and developing them into growth organizations. Prior to joining Infinite, Upinder was, for a period of six years, the Chief Executive Officer of Velocient Technologies Inc., a digital consulting & IT services company in the US. For five years preceding this, he was the co-founder and Vice President at Eastern Software Systems (ESS) Ltd., a leading software products and IT services company and was responsible for setting up and running the middle-eastern operations of the company. Upinder started his career with CMC Ltd., where he spent eight years holding various functions in sales, marketing and program management.

Upinder holds a Mechanical Engineering degree from the Birla Institute of Technology & Sciences (BITS), Pilani. He is an avid golfer and a photographer.

Anurag Lal

CEO, Infinite Convergence

Anurag Lal, Chief Executive Officer of Infinite Convergence Solutions, leads a talented team of industry leaders and innovators to provide a full range of messaging products and value added mobility solutions to some of the largest telecom operators in the world. His team has evolved the highly available and reliable messaging products to make them fully scalable for use by operators and businesses of varying sizes. Anurag takes pride in building teams and creating highly capable organizations that meet the challenges of the dynamic communication marketplace.

Anurag has over 20 years of leadership and operational experience in technology, IT and telecom services. Prior to this appointment, he was Senior Vice President, global service provider at Meru Network (NASDAQ: MERU) and Chief Business Development and Sales Officer at iPass Inc (NASDAQ: IPAS). He was a part of the core teams involved in the successful IPOs of both these businesses. Prior to his role at iPass, Anurag was vice president of Internet and multimedia services for British Telecom, vice president of data and Internet services at e.spire Communications, Inc (formerly ACSI) and senior manager at Sprint International Communications Corporation.

In addition to his business successes, Anurag served as a Director of the United States National Broadband Taskforce (part of the Federal Communications Commission). He was appointed to the taskforce by the Obama administration, with a charter to lead the efforts in deeply

understanding global broadband policies, regulations, best practices and create the first National Broadband plan. This initiative has brought Anurag worldwide recognition and elevated his status to being an industry visionary in the field.

Anurag has authored numerous articles on wireless connectivity, broadband and related security issues; he is also a recognized speaker on the international speaker circuit. He is the recipient of various industry accolades; he was most recently recognized by the Wireless Broadband industry Alliance in the UK for exceptional individual contribution to the Wireless Broadband industry. Anurag holds a Bachelors of Arts degree in Economics from Delhi University and has attended the Senior Leadership Program at Harvard University's John F. Kennedy School.

Amit Srivastav

President, Business Technology Solutions

Amit Srivastav is the President of Technology Solutions at Infinite Computer Solutions. He heads a team of strong business leaders who are focused on the Platformization™ of business solutions across the Healthcare, Media & Content, Telecommunications and Banking & Finance verticals. With +20 year of experience in the IT and Outsourcing Industries, he is responsible for sales, delivery, systems and solutions and business marketing functions for the company. His motivational style of leadership drives positive energy in his teams and brings innovative service offering to the marketplace

Prior to joining Infinite, Mr. Srivastav headed HCL Technologies' Sourcing Advisory and Strategic Alliance functions for the Americas, responsible for systems integration revenue and profitability, new solution development and field engagement between HCL and its core strategic partners

Mr. Srivastav started his career with HCL Technologies in 1993 and later moved to Microsoft, where he was part of the Core Partner and Channel business. He worked at 3i InfoTech before returning to HCL in 2006. While at HCL, Mr. Srivastav managed the East Coast sales of HCL's Infrastructure business, where he delivered high revenue growth over 4 years. He also founded and ran his own venture in Silicon Valley.

Mr. Srivastav has a Bachelor of Technology in Computer Science from GB Pant University of Technology. He also trained with the executive program on business management, marketing and related support services at the prestigious XLRI, Xavier School of Management in India.

KS Rao

Executive VP and BU head of PES at InfiniteComputer Solutions

K.S.Rao (KS) has over 30 years of industry experience across various disciplines. He joined Infinite in 2011 as Head of the Product Engineering Solutions. In his tenure so far, he has been at the helm of developing several innovative projects in capability and competency building that cater to the emerging needs of the industry; thereby successfully expanding both the portfolio and the business ventures of PES.

KS started his career as an R&D Engineer and went on to become the head of technology division at erstwhile PCS Industries (acquired by Igate and presently CapGemini). During his tenure at PCS, he led teams that designed and developed many commercial grade products ranging from terminals, 32 bit controllers for mini computers, early CP/M and DOS machines etc. He also enabled the diversification into the PC and networking business which enhanced revenues exponentially.

He then moved on to become the VP and Head of Sales NA at L&T Infotech's PES division. Under his leadership the business revenues surged exponentially. He led his team to a successful growth and expansion in North America and European regions by initiating several large Telecom and Semi-conductor companies.

As the Delivery Head for communication and embedded systems – he enabled the organization's growth in Mobile, Wireless technologies. Under his leadership he built a strong team of 500 tech experts from a mere 50 when he began his campaign, which was a great factor in consolidating a strong establishment of the business in Europe, North America and Japan.

Infinite Computer Solutions Leadership Profiles

He is an alumni of IIT Madras and SV University. KS lives in Dallas, TX with his wife and two sons. He is very fond of listening to music and continues to pursue his interest in Cricket with great passion.

Sanjeev Gulati
