INFINITE ACQUIRES IBM TALENT ACQUISITION SUITE

Rockville, Maryland - October 12, 2021 Infinite Computer Solutions, a leading global technology company, announced the completion of the acquisition of IBM's (NYSE: IBM) Talent Acquisition Suite. This suite is composed of Lead Manager, BrassRing on Cloud, and Onboard. These SaaS products support more than 40 languages and provide candidate lifecycle management and employee onboarding for 200+ Fortune customers in over 40 countries. In the past 12 months, the products managed more than 60 million candidate submissions with almost 50 million recruiter logins and over 4 million active users.

The Talent Acquisition Suite of products was built to accommodate the complexities of recruitment and onboarding requirements.

"With the recovery from Covid19, our clients have had unprecedented needs for hiring and, we saw an opportunity to provide a proven SaaS-based platform to optimize the end-to-end hiring process, from sourcing and attracting top talent to employee retention, "said Sanjay Govil, Founder and Chairman of Infinite Computer Solutions.

"Our platform-led approach for solving digital transformation challenges across industries is working well, and we continue to adopt this strategy for accelerating the transformation for our customers."

Today's talent acquisition leaders need more than an applicant tracking system to achieve the quality of hire, speed, and efficiency they need to drive their business. This end-to-end Talent Acquisition Suite includes everything that customers need to source, attract, hire, and onboard the talent required to grow their business. The solution consists of a proven Applicant Tracking System, BrassRing, with a suite that allows customers to improve their efficiency, candidate experience, diversity, and hire quality. In addition to technology, Infinite will combine the strength of consulting and system integration to drive true recruiting transformation that companies need to leap ahead in talent acquisition.

"Aligning our customer's growth strategy with cloud-enabled digital technologies will play a critical role in building a future-ready enterprise," said Sanjay Govil.
