Infinite Expands Partner Relationship with Microsoft by Joining Cloud Solution Provider Program

ROCKVILLE, Maryland - June 8, 2023 Infinite Computer Solutions, a leading global technology company, announced that is deepening it's partnership with Microsoft through the signing of a Cloud Solution Provider (CSP) Agreement.

The Microsoft CSP program provides the tools to simplify how clients provision, procure, and manage cloud products, such as Microsoft 365, Microsoft Azure, Dynamics 365 and PowerBI. As a trusted partner to many global organizations, this agreement allows Infinite to broaden it's Azure cloud solution offering and bring additional value to clients as they deploy Azure solutions.

Client benefits include:

1. Optimized configurations - Infinite can architect, solution, provision and support the appropriate Azure infrastructure to maximize value and flexibility, based on the application requirements.
2. Clients have a single point-of-contact for the entire solution including Azure infrastructure, applications, professional services, and on-going managed services.
3. Flexible pricing, where clients pay only for what they use, scaling up or down as necessary.
4. Simplified and consolidated billing and invoicing for all solution components.
5. Access to additional Microsoft programs, subject-matter-experts, resources and tools.

Delivering powerful, cloud-based solutions and services that truly bring innovation to our clients is integral to being a trusted partner, and the CSP program helps deliver that promise.

About Infinite Computer Solutions
