

# CHAIRMAN'S SPEECH

**17<sup>TH</sup> ANNUAL GENERAL MEETING OF  
INFINITE COMPUTER SOLUTIONS (INDIA) LTD**

I have the great pleasure in welcoming you to the 17<sup>th</sup> Annual General Meeting of our company. I am happy to report that we have had another wonderful year. I, once again, thank you for your continued support. We appreciate your confidence in us and we commit to living up to your expectations.

Platformization™ continues to be the focus of our company as we continue to gain traction in our chosen verticals of Healthcare, BFSI, Telecom and Media. Infinite, as a company, has also been recognized for its approach of Platformization™, winning the “company of the Year” award by Stevie organization.

Our existing solutions including EMS and NetSfere have increased their penetration in the communication space adding numerous new clients to our portfolio. We have now added two new solutions to the marketplace: PC3 and Zyphor™.

PC3 is our Connected Care platform addressing the need for improving patient health while reducing the cost of providing this care. It allows for better patient outcomes by placing the care receiver at the center of all care-related stakeholders. It also strives to provide opportunity to every major player to either use the platform as a standalone solution or as a fully integrated system in which a client can collaborate with other stakeholders to maximize benefits.

Zyphor™ is an online campaign management & social listening platform designed to help organizations understand social health of their brand. But what will make this analysis more meaningful is its ability to understand reasons behind perceptions.

We are excited about the growth of the company on these solid offerings of both services and solutions. We can already see the impact of these offerings in the market, since we have been able to increase our customer count by more than 50% in the last year alone.

I would like to recognize all three business areas Technology Solutions, Convergence and Product Engineering for delivering excellent services and solutions to our valuable clients.

As we conclude, let me once again thank you, our valued shareholders, for your support in this shared journey. On behalf of the entire Infinite family, we look forward to your continued support and encouragement.

**Sanjay Govil**
