

# CHAIRMAN'S SPEECH

## 18<sup>TH</sup> ANNUAL GENERAL MEETING

### OF INFINITE COMPUTER SOLUTIONS (INDIA) LTD

I have the great pleasure in welcoming you to the 18<sup>th</sup> Annual General Meeting of our company. I am happy to report that we have had another wonderful year, and I thank you for your continued support. We appreciate your confidence in us and we commit to living up to your expectations.

We have made excellent progress in all of our chosen verticals - Healthcare, BFSI, Telecom & Media, High Tech and Government services. We are happy to report that the company has increased its customer count by 30% in just this past year. The Healthcare vertical has been a significant contributor to this growth. From large healthcare provider organizations, to payer organizations, to research institutes, Infinite has been recognized as a leader in the HC space by successfully winning contracts of solution delivery. The telecom market has seen some great wins, with our latest acquisition of additional messaging Intellectual Property, creating even more growth opportunities in this vertical.

Our traction in the marketplace continues due to our use of the Platformization™ approach for creating customers solutions. This increases both the efficiency and speed of delivery of our solutions. We have been regularly recognized by our peers and the industry for our products and services, including a Stevie American Business award for “Company of the Year” and 2 Leadership Awards for both Upinder Zutshi and Amit Srivastav. All of these successes could not have been accomplished without end-to-end synchronized communications between sales, delivery, and the support organizations. Thank you to all Infinities for this fantastic growth of your company.

I would like to recognize all the three business areas - Technology solutions, Convergence and Product Engineering for delivering excellent services and solutions to our valuable clients.

As I conclude, let me once again thank you, our valued shareholders, for your unwavering support in this journey of growth and success. On behalf of the entire Infinite family, we look forward to your continued support and encouragement.

**Sanjay Govil**

Chairman - Infinite Computer Solutions (India) Limited.
